Overview

The myPOS Smart Devices come with eight default apps. In addition, thanks to the AppMarket the merchants get the opportunity to browse and download other business apps of their choice. myPOS works with third-party developers which will also deploy their apps on the AppMarket.

Payment App

Accept POS payments in a quick, innovative and secure way, track activity and generate reports.

Private Label GiftCard App

Turn your products and services into gifts. Load, activate and accept payments with Private Label GiftCards.

MO/TO Payment app Accept card-not-present transactions with ease

transactions with ease, track activity and generate reports.

Top-up app

Top up prepaid services offered by more than 700 mobile operators in 141 countries across the globe.

Register App Turn your myPOS Smart into a full-featured ECR (cash register) with the Register App.

Settings app Change your device settings with just a few taps.

Payment request app Request money from around the world by sending a payment request link by SMS or email.

App Market

One-stop shop for business applications, designed exclusively for myPOS Smart.

AppMarket App

Your one-stop shop for business applications

The AppMarket app gives you access to a digital platform where you can browse through various business apps, designed exclusively for myPOS Smart. You can install apps of your choice and handle everyday business operations using one single device your myPOS Smart terminal.

Furthermore, if you are a developer building mobile business applications, you can publish apps on the AppMarket and boost app sales and popularity.

The myPOS Smart terminal comes equipped with these 8 apps:

- Payment app
- MO/TO app
- Payment Request app
- Top-up app
- **Register app**
- Private Label GiftCard app
- Settings app
- AppMarket app

Getting started

The AppMarket app is installed by default on myPOS Smart.

You can start the app by tapping AppMarket app icon on your myPOS Smart device home screen.

NB! If you do not find the AppMarket on the home screen of your device, you can quickly download and install it from the Settings app.

All you have to do is:

en

update.

Payment App

Accept POS payments in a quick, innovative and secure way.

The Payment app enables you to accept all types of cashless payments, including payments with chip, magstripe cards or NFCenabled cards and devices.

The Payment app includes the following features:

- Payment
- Refund
- Last transaction void cancels the last successful transaction
- Print last receipt
- Pre-authorization blocks a predefined amount before the transaction takes place
- Activity list of all approved and declined transactions
- Reports total payments report
- Additional features Tipping mode, Multi-operator mode, Reference number and Receipt configuration

Getting started

The myPOS Smart Devices come with a preinstalled Payment app.

You can start the app by tapping the Payment app icon on your myPOS Smart device home screen.

NB! If you do not find the Payment app on home screen, you can quickly download and install it from the Settings app.

All you need to do is:

Settings

To search for a specific transaction, tap \bigcirc .

Tap to filter transactions by date, transaction status and transaction type. Tap 🕑 to apply filters (if selected) or to go back.

To see the details of a specific transaction, tap on it.

Tap Print receipt to print both customer's and merchant's copy. On this screen you can also send a receipt by email or SMS. If you do not want to print or send a receipt, tap X in the upper right corner of the screen to go back.

Reports

To see a summary report of your transactions, tap REPORTS in app's menu.

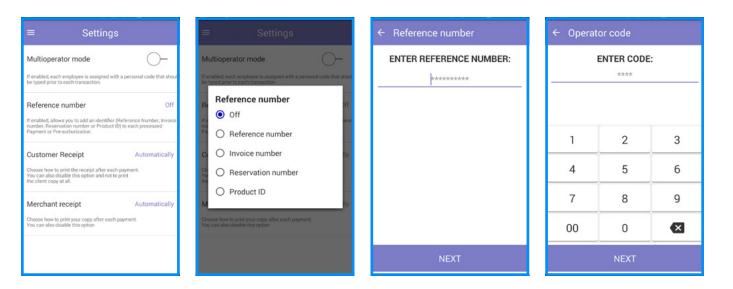

17 Mar 2018 00:00 -	17 Apr 2018 17:45
GiftCard Total: 1377	
26 Sale	2114.92 EUR
6 Void - Sale	737.77 EUR
Transactions w Total: 536	
30 Payment	575.30 EUR
4 Void - Payment	13.00 EUR
9 Refund	31.16 EUR
2 Void - Refund	5.26 EUR

By default the report is for the current day. Swipe down to see all transactions. To choose different period, tap

To print the displayed report, tap PRINT REPORT.

Settings

From the SETTINGS menu in Private Label GiftCard app you can change the following settings:

Receipt printing after each transaction

Tap Customer receipt copy to change the settings. You can choose from the following options:

• Automatically, After confirmation, Disabled.

Tap Merchant receipt copy to change the settings. You can choose from the following options:

• Automatically, Disabled

Reference number

If enabled, the Reference number allows you to add an identifier to each processed payment or preauthorization. This field will be optional. Tap Reference number to choose from reference number identifiers or to disable the option. A screen for entering reference number will be displayed during each payment transaction, but it will be optional.

Multi-operator mode

If enabled, each employee should enter a personal code prior to each payment transaction. This field will be obligatory.

Register app

The Register app is a next-generation point-of-sale application, created to enable customer-centric retailers to manage their day-to-day transactions. A beautifully designed, with amazing interface and great user experience, the Register app guarantees fast and easy checkout.

With the myPOS Smart device and the Register app, merchants can accept any type of payment in their stores. No matter how customers choose to pay, myPOS Register app will easily make the sale. Customers can swipe, use a chip card or tap & pay with their contactless cards or mobile phones. What's more – the app accepts cash payments and payments with Private Label GiftCards.

With the Register app, you can easily:

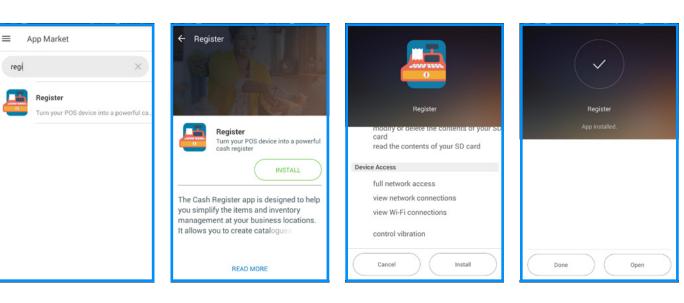

- Create and edit your Items catalogue
- Accept payments: card and cash payments, split payment between cash and card
- Track activity: see a detailed list of all transactions, issue refunds and send receipts to customers
- Reporting: generate and print summary reports of all payments accepted for a period

Getting started

Each myPOS Smart device comes with an installed Register app. You can start the app by tapping the Register app icon on the home screen of your myPOS Smart device.

NB! If you do not find the Register app on your home screen, you can quickly download and install it from the AppMarket.

All you need to do is:

Search for the Register app in the AppMarket.

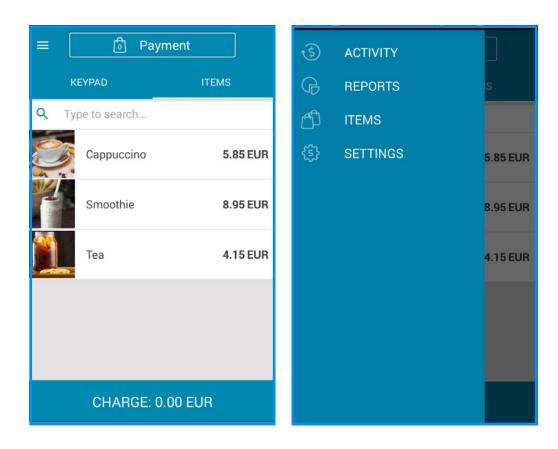

Tap INSTALL to download the application.

Grant access rights.

Tap INSTALL.

You can start the app by clicking on "Open" or launch it from Register app icon on the home screen of your myPOS Smart device.

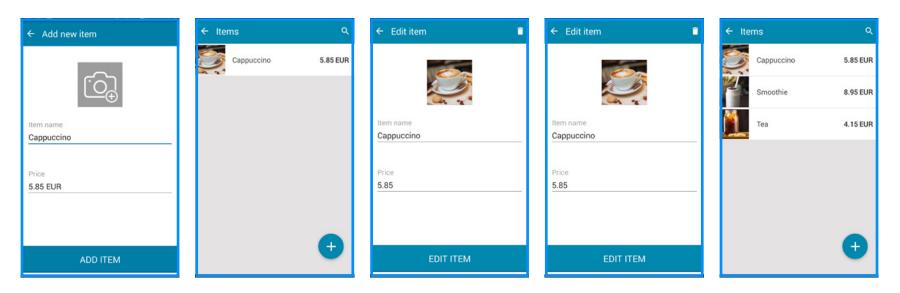

Main screen and app menu

Items management

The Items catalogue is available in the app menu. You can easily add an item from the Items menu:

Add a new item

You can easily add an item from the Items menu:

Enter item's name and price.
